PREFERRED PROVIDER QUICK REFERENCE GUIDE

WELCOME

Welcome to American Choice Healthcare. Our network is composed of Participant Providers (Primary Care Physicians) and Preferred Providers (Specialists and other facility types) that work together to provide better quality care for Medicare beneficiaries. This guide and corresponding links and policies may be updated from time to time.

Our Provider Network Department gathers practice data to review claims on patients we share in common. Through preventive health and data driven coordination, we help elevate the quality of patient care and increased patient engagement.

PROVIDER UPDATES

If your organization has changes such as:

- New providers

CLAIMS

American Choice Healthcare does not adjudicate CMS claims submitted by Provider. Providers are solely responsible for submission of accurately coded and billed claims to CMS for services rendered to REACH beneficiaries, pursuant to the ACO REACH Model Program. If you have a question please contact us!
