

NOW IS THE BEST TIME FOR PCPS TO EMBRACE VALUE-BASED CARE

Here's Why:

PRIMARY CARE PHYSICIANS ARE UNDER PRESSURE like never before. With only 42.2% of physicians remaining in private practice—the lowest in over a decade—many PCPs are searching for ways to remain independent while improving profitability.

Value-based care (VBC) offers a path forward. In fact, over 60% of clinical leaders practicing VBC expect to earn higher revenue this year than in 2024. And the Centers for Medicare and Medicaid Services (CMS) and the Center for Medicare and Medicaid Innovation (CMMI) are actively encouraging independent PCPs to make the shift, offering:

- ✓ **Prospective payments to Accountable Care Organization (ACO) participants**
- ✓ **Streamlined reporting to reduce admin burdens**
- ✓ **AI-powered chronic care management**
- ✓ **Improved Medicare Advantage Star Ratings focused on prevention**

A PROVEN MODEL THAT PUTS PHYSICIANS FIRST

American Choice Healthcare (ACH) is a physician-led value-based organization designed to help PCPs succeed in value-based care. Without giving up control.

ACH aligns with CMS and CMMI priorities and offers a no-cost, full-support partnership that helps independent practices thrive.

Here's what you get with ACH:
